• Members are encouraged not to use an HSA, health FSA, or HRA (including any related debit card) to purchase contraception for which the individual intends to seek reimbursement from their FEHB plan.	Nothing (no deductible)	Nothing (no deductible)

Specialty drug benefits

CVS Specialty Pharmacy is the exclusive provider for specialty medications. CVS Specialty Pharmacy provides not only your specialty medications, but also personalized pharmacy care management services. If you have questions, visit geha.com/Prescriptions-Summary or call Specialty Customer Care at 800-237-2767.

Specialty medications are certain pharmaceuticals which may be biotech or biological drugs. Specialty medications are oral, injectable or infused, and/or may require special handling. To maximize patient safety, most specialty medications require preauthorization. These drugs are used in the treatment of complex, chronic medical conditions which include but are not limited to hemophilia, multiple sclerosis, hepatitis, cancer, rheumatoid arthritis, pulmonary hypertension, transplant, HIV, osteoarthritis, growth hormone therapy, and immune deficiency. If you are new to select specialty therapies (i.e., oral oncology, hepatitis B, Parkinson's disease psychosis and hematological disorders), you will receive a 14- or 15-day supply for the first 2 months of therapy. Your copayment/coinsurance will be prorated. If you continue on this therapy, you may receive up to a 30-day supply of the medication.

Your benefits may include the Advanced Control Specialty Formulary (ACSF); please see *CVS Caremark formulary* for additional information. Most specialty drugs **require preauthorization**. See "How to obtain preauthorization" under *Prescription drug benefits*. For certain specialty therapies, you are required to use the generic unless your physician demonstrates medical necessity for the brand.

Outpatient, non-surgical cancer treatments **require preauthorization.** You or your provider will need to call us at 800-821-6136 or visit geha.com/Provider-Partner-Tools.

*Your specialty benefit is limited to a 30-day supply. However, some specialty medications may not be available in a 30-day supply. Your coinsurance/copayment will be based on days of therapy (length of time medication remains in your system).
