Special features	Description
QuestSelect	The QuestSelect Program gives you and your covered dependents the option of receiving 100% covered outpatient laboratory testing. QuestSelect is an optional program for members enrolled in the Standard Option. If you choose not to use QuestSelect, you will not be penalized. You will simply pay the deductible, coinsurance or copay portion of your lab work. QuestSelect does not replace your current healthcare benefits; it simply gives you and your dependents the option of receiving 100% coverage for outpatient laboratory testing. Please Note: You must show your QuestSelect card each time you obtain lab work whether in the physician's office or collection site. This benefit applies to expenses for lab tests only. Related expenses for services by a physician (or lab tests performed by an associated laboratory not participating in the QuestSelect Program) are subject to applicable deductibles and coinsurance. QuestSelect covers most outpatient laboratory testing included in your health insurance plan, provided the tests have been ordered by a physician and you have asked for the QuestSelect benefit and shown your QuestSelect card. Outpatient lab work includes blood testing (e.g., cholesterol, CBC), urine testing (e.g., urinalysis), cytology and pathology (e.g., pap smears, biopsies), and cultures (e.g., throat culture). To learn more, go to geha.com/Member-Lab-Savings. QuestSelect does not cover: Lab work ordered during hospitalization, lab work needed on an emergency (STAT) basis and time sensitive, esoteric outpatient laboratory testing such as fertility testing, bone marrow studies and spinal fluid tests, non-laboratory work such as mammography, x-ray, imaging and dental work.
