Section 5(d). Emergency Services/Accidents

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations, and exclusions in this brochure and any applicable medical or payment policies. Policies may be found on our website geha.com/Provider-Policies. In some instances, additional services may be rendered, and additional cost shares may apply.
- Benefits are applied based on how your provider bills Us. You must reference all Sections in this Brochure depending on where your care is obtained. For example, but not limited to, any procedure, injection, diagnostic service, laboratory, or x-ray service done in a hospital in conjunction with a physician office examination may apply separate cost share depending on where you obtain your care.
- The calendar year deductible is $500 per person ($1,000 if enrollment is Self Plus one or Self and Family) if you use in-network providers; the calendar year deductible is $2,000 per person ($4,000 if enrollment is Self Plus One or Self and Family) if you use out-of-network providers. Applicable coinsurance applies after you meet your Deductible and continues until you reach your Out-of-Pocket maximum.
- We will provide in-network benefits if you are admitted to an out-of-network hospital due to a medical emergency. We will also provide in-network benefits if you receive care from professionals who provide services in an out-of-network hospital, when admitted due to a medical emergency.
- The out-of-network benefits are the standard benefits of this Plan. In-network benefits apply only when you use an in-network provider. When no in-network provider is available, out-of-network benefits apply.
- When you visit an in-network facility, the professionals who provide services to you may not all be in-network providers. If you receive out-of-network services at an in-network facility, we will pay up to the Plan allowance according to the No Surprises Act.
- Medications may be available under the Prescription drug benefit and may require prior authorization.
- Benefits for certain prescription medications and supplies (e.g., self-injectable or self-administered) are only eligible for coverage when dispensed by a pharmacy, under the pharmacy benefit, even if you obtain these medications from your provider.
- **YOU MUST GET PREAUTHORIZATION FOR SOME SERVICES.** Please refer to the preauthorization information shown in Section 3 to be sure which services require preauthorization.
- Be sure to read Section 4, *Your Costs for Covered Services*, for valuable information about how cost-sharing works. Also, read Section 9, *Coordinating Benefits with Medicare and Other Coverage*, for information about how we pay if you have other coverage, or if you are age 65 or over.

What is an Accidental Injury?

An accidental injury is a bodily injury sustained solely through violent, external, and accidental means, such as broken bones, animal bites, and poisonings.

What is a Medical Emergency?

A medical emergency is the sudden and unexpected onset of a condition or an injury that you believe endangers your life or could result in serious injury or disability and requires immediate medical, surgical, or behavioral health care (includes mental health and substance use disorders). Some problems are emergencies because, if not treated promptly, they might become more serious; examples include deep cuts and broken bones. Others are emergencies because they are potentially life threatening, such as heart attacks, strokes, poisonings, gunshot wounds, the sudden inability to breathe, or imminent risk of causing harm to oneself or others. There are many other acute conditions that we may determine are medical emergencies – what they all have in common is the need for quick action.
