- Select specialty therapies are included in the Starter Fill Program. For these medications, you will receive a 14 or 15-day supply for the first 2 months of therapy. Your coinsurance will be prorated based on the days of therapy.
- Medications may be available under the Prescription drug benefit and may require prior authorization.
- Benefits for certain prescription medications and supplies (e.g., self-injectable or self-administered) are only eligible for coverage when dispensed by a pharmacy, under the pharmacy benefit, even if you obtain these medications from your provider.
- Some specialty and non-specialty medications may not be available in a 30-day supply; your coinsurance will be based on days of therapy.
- **The exclusion for hormone treatments for Sex-Trait Modification for gender dysphoria** only pertains to chemical and surgical modification of an individual's sex traits (including as part of "gender transition" services). **We do not exclude coverage for entire classes of pharmaceuticals**, e.g., GnRH agonists may be prescribed during IVF, for reduction of endometriosis or fibroids, and for cancer treatment or prostate cancer/tumor growth prevention.
