- G.E.H.A does not cover room and board during intensive day treatment programs. Under the direction of a physician, services must be provided for at least two hours per day and may include group, individual, and family therapy along with psychoeducational services and adjunctive psychiatric medication management.
  - Partial Hospitalization Program (PHP): A facility-based outpatient treatment program for mental health and/or substance use disorder conditions not requiring 24-hour care. Twenty or more hours of care per week is usually delivered at a minimum of four hours a day, five days a week. Time frames and frequency will vary based on condition, severity, and individual treatment plan.
  - Intensive Outpatient Program (IOP): A comprehensive, structured outpatient treatment program that includes extended periods of individual or group therapy sessions for mental health and/or substance use disorder conditions. It is an intermediate level of care between traditional outpatient therapy and partial hospitalization, delivered in an outpatient facility or outpatient professional office setting. Nine or more hours of care per week is usually delivered at a minimum of three hours a day, three days a week. Time frames and frequency will vary based on condition, severity, and individual treatment plan.

Minor acute conditions

Common, non-emergent conditions. Examples of common conditions include sinus problems, rashes, allergies, cold and flu symptoms, etc.

Never event policies

Federal or State policies that bar healthcare providers from charging patients for care that is attributable to certain avoidable complications or errors, such as wrong site surgery.

Observation care

Observation care is a well-defined set of specific, clinically appropriate services, which include ongoing short-term treatment, assessment, and reassessment, that are furnished while a decision is being made regarding whether patients will require further treatment as hospital inpatients or if they are able to be discharged from the hospital. Observation services are commonly ordered for patients who present to the emergency department and who then require a significant period of treatment or monitoring in order to make a decision concerning their admission or discharge.

The Plan provides outpatient hospital benefits for observation care. If you are in the hospital for more than a few hours, confirm with your physician whether your stay is inpatient or outpatient so that you are aware of how your hospital claim will be processed.

Plan

A Fee-for-Service High and Standard health plan with a Preferred Provider Network administered by G.E.H.A as permitted through contract with Office of Personnel Management (OPM).

Plan allowance

Our Plan allowance is the amount we use to determine our payment and your coinsurance for covered services. Fee-for-service plans determine their allowances in different ways.

Allowable expense (plan allowance) is a healthcare expense, including deductibles, coinsurance and copayments, that is covered at least in part by any plan covering the person. When a plan provides benefits in the form of services, the reasonable cash value of each service will be considered an allowable expense and a benefit paid.

We determine our Plan allowance as follows:

In-network providers: Our network allowances are negotiated with each provider who participates in the network. Network allowances may be based on a standard reduction or on a negotiated fee schedule. For these allowances, the in-network provider has agreed to accept the negotiated reduction and you are not responsible for this discounted amount. In these instances, the benefit paid plus your coinsurance equals payment in full.

Out-of-network providers: We will determine the out-of-network Plan allowance by applying the following rules:
