Section 10. Definitions of Terms We Use in This Brochure

Accidental injury

An injury caused by an external force or element such as a blow or a fall that requires immediate medical attention. Also included are animal bites, poisonings, and dental care required to repair injuries to sound natural teeth as a result of an accidental injury, not from biting or chewing.

Admission

The period from entry (admission) into a hospital or other covered facility until discharge. In counting days of inpatient care, the date of entry and the date of discharge are counted as the same day.

Advance care planning

The process of making decisions about future healthcare options in the event of a medical crisis. This might involve the appointment of a substitute decision-maker or the completion of an advance care directive or similar document.

Artificial insemination

Artificial insemination is a surgical procedure for the introduction of sperm or semen into the vagina, cervix, or uterus to produce pregnancy.

Assignment

An authorization by you (the enrollee or covered family member) that is approved by us (the Carrier), for us to issue payment of benefits directly to the provider.

- We reserve the right to pay you directly for all covered services. Benefits payable under the contract are not assignable by you to any person without express written approval from us, and in the absence of such approval, any assignment shall be void.
- Your specific written consent for a designated authorized representative to act on your behalf to request reconsideration of a claim decision (or, for an urgent care claim, for a representative to act on your behalf without designation) does not constitute an Assignment.
- OPM’s contract with us, based on federal statute and regulation, gives you a right to seek judicial review of OPM's final action on the denial of a health benefits claim but it does not provide you with authority to assign your right to file such a lawsuit to any other person or entity. Any agreement you enter into with another person or entity (such as a provider, or other individual or entity) authorizing that person or entity to bring a lawsuit against OPM, whether or not acting on your behalf, does not constitute an Assignment, is not a valid authorization under this contract, and is void.

Assisted reproductive technology

Assisted reproductive technology (ART) includes all fertility treatments in which either eggs or embryos are handled. In general, ART procedures involve surgically removing eggs from the ovaries, combining them with sperm in the laboratory, and returning them to the birthing person's body or donating them to another person. They do NOT include treatments in which only sperm are handled (i.e., intrauterine-or artificial-insemination) or procedures in which a birthing person takes medicine only to stimulate egg production without the intention of having eggs retrieved.

Calendar year

January 1 through December 31 of the same year. For new enrollees, the calendar year begins on the effective date of their enrollment and ends on December 31 of the same year.

Calendar year deductible

There is an in-network deductible and an out-of-network deductible for the entire Plan year for covered services - medical, prescription, inpatient, outpatient, mental health and manipulative therapy - you must incur for almost all covered services and supplies before we start paying benefits.

Clinical trials cost categories

An approved clinical trial includes a phase I, phase II, phase III, or phase IV clinical trial that is conducted in relation to the prevention, detection, or treatment of cancer or other life-threatening disease or condition, and is either Federally-funded; conducted under an investigational new drug application reviewed by the Food and Drug Administration (FDA); or is a drug trial that is exempt from the requirement of an investigational new drug application.

If you are a participant in a clinical trial, this health plan will provide related care as follows, if it is not provided by the clinical trial:
