- Routine care costs – costs for routine services such as doctor visits, lab tests, x-rays and scans, and hospitalizations related to treating the patient's condition whether the patient is in a clinical trial or is receiving standard therapy.
- Extra care costs – costs related to taking part in a clinical trial such as additional tests that a patient may need as part of the trial, but not as part of the patient's routine care.
- Research costs – costs related to conducting the clinical trial such as research physician and nurse time, analysis of results, and clinical tests performed only for research purposes are generally covered by the clinical trials.

Coinsurance See Section 4, *Your Costs for Covered Services*.

Compound medications A compound medication includes more than one ingredient and is custom made by a pharmacist according to your doctor's instructions. Compound prescriptions must contain a federal legend drug and the ingredients must be covered by the G.E.H.A benefit.

Congenital anomaly A condition existing at or from birth which is a significant deviation from the common form or norm. For purposes of this Plan, congenital anomalies include cleft lips, cleft palates, birthmarks, webbed fingers or toes and other conditions that the Plan may determine to be congenital anomalies. Surgical correction of congenital anomalies is limited to children under the age of 18 unless there is a functional deficit. In no event will the term congenital anomaly include conditions relating to teeth or intra-oral structures supporting the teeth.

Copayment See Section 4, *Your Costs for Covered Services*.

Cosmetic Any procedure or any portion of a procedure performed primarily to improve physical appearance and/or treat a mental condition through change in bodily form.

Cost-sharing See Section 4, *Your Costs for Covered Services*.

Covered services Services we provide benefits for, as described in this brochure.

Custodial care We do not provide benefits for custodial care, regardless of who recommends the care or where it is provided. The Carrier or its delegated medical professionals determine which services are custodial care.

Custodial care includes treatment, supplies or services, that are provided to a patient mainly to help with activities of daily living. These activities include but are not limited to:

- Service, supplies, and treatment that are designed mainly to train or assist the patient in personal hygiene or other activities of daily living rather than provide therapeutic treatment; or
- Personal care such as help ambulating, getting in and out of bed, eating by spoon, tube or gastrostomy, exercise, and dressing;
- Homemaking, such as preparing meals or special diets;
- Acting as companion or sitter;
- Supervising medication that can usually be self-administered;
- Physical, emotional, or behavioral treatment or services that can be provided by non-licensed caregivers with minimal instruction, including but not limited to recording temperature, pulse, and respirations, or administration and monitoring of feeding systems; and
- Services or treatment where further medical professional intervention is not expected to result in significant improvement in the member's condition. The member's condition is no longer demonstrating measurable progress towards established treatment goals that have been documented in the patient's treatment record.

Deductible See Section 4, *Your Costs for Covered Services*.
