If you have an HSA

- **Contributions**

  All contributions are aggregated and cannot exceed the maximum contribution amount set by the IRS. You may contribute your own money to your account through payroll deductions, or you may make lump sum contributions at any time, in any amount not to exceed an annual maximum limit. If you contribute, you can claim the amount you contributed for the year as a tax deduction when you file your income taxes. Your own HSA contributions are either tax-deductible or pre-tax (if made by payroll deduction). You receive tax advantages in either case. To determine the amount you may contribute, subtract the amount the Plan will contribute to your account for the year from the maximum contribution amount set by the IRS. You have until April 15th of the following year to make HSA contributions for the current year.

  If you newly enroll in an HDHP during Open Season and your effective date is after January 1st, or if you enroll any time and have partial year coverage, you are eligible to fund your account up to the maximum contribution limit set by the IRS as long as you maintain your HDHP enrollment for 12 months following the last month of the year of your first year of eligibility. If you do not meet this requirement, a portion of your tax reduction is lost, and a 10% penalty is imposed. There is an exception for death or disability. Contact HSA Bank™ (PO Box 939, Sheboygan, WI 53082-0939, 866-471-5964, www.hsabank.com) for more details.

- **Over age 55 additional contributions**

  If you are age 55 or older, the IRS permits you to make additional contributions to your HSA. The allowable additional contribution is $1,000. Contributions must stop once an individual is enrolled in Medicare. Additional details are available on the IRS website at www.irs.gov or request a copy of IRS Publication 969 by calling 800-829-3676.

- **If you die**

  If you have not named a beneficiary and you are married, your HSA becomes your spouse's; otherwise, your HSA becomes part of your taxable estate.

- **Qualified expenses**

  You can pay for "qualified medical expenses" as defined by IRS Code 213(d). These expenses include, but are not limited to, medical plan deductibles, diagnostic services covered by your plan, long-term care premiums, health insurance premiums if you are receiving Federal unemployment compensation, over-the-counter drugs, LASIK surgery, and some nursing services.

  When you enroll in Medicare, you can use the account to pay Medicare premiums or to purchase health insurance other than a Medigap policy. You may not, however, continue to make contributions to your HSA once you are enrolled in Medicare.

  For detailed information of IRS-allowable expenses, request a copy of IRS Publications 502 and 969 by calling 800-829-3676, or visit the IRS website at www.irs.gov and click on "Forms and Instructions." Note: Although over-the-counter drugs are not listed in the publication, they are reimbursable from your HSA. Also, insurance premiums are reimbursable under limited circumstances.

- **Non-qualified expenses**

  You may withdraw money from your HSA for items other than qualified health expenses, but it will be subject to income tax and if you are under 65 years old, an additional 20% penalty tax on the amount withdrawn.

- **Tracking your HSA balance**

  You will receive a periodic statement that shows the "premium pass through" and other contributions, withdrawals, and interest earned on your account.

- **Minimum reimbursements from your HSA**

  You can request reimbursement in any amount. Just like a normal bank account, you cannot reimburse yourself for expenses that are greater than the balance in the account.
