Section 5. High Deductible Health Plan Overview

This Plan offers a High Deductible Health Plan (HDHP). The HDHP benefit package is described in this section. Make sure that you review the benefits that are available under the benefit product in which you are enrolled.

HDHP Section 5, which describes the HDHP benefits, is divided into subsections. Please read *Important things you should keep in mind about these benefits* at the beginning of each subsection. Also read the *General Exclusions* in Section 6; they apply to benefits in the following subsections. To obtain claim forms, claims filing advice, or more information about HDHP benefits, contact us at 800-821-6136 or on our website at geha.com/Get-Support.

Our HDHP option provides comprehensive coverage for high-cost medical events and a tax-advantaged way to help you build savings for future medical expenses. The Plan gives you greater control over how you use your benefits.

When you enroll in this HDHP, we establish either a Health Savings Account (HSA) or a Health Reimbursement Arrangement (HRA) for you. We automatically pass through a portion of the total health Plan premium to your HSA or credit an equal amount to your HRA based upon your eligibility. Your full annual HRA credit will be available on your effective date of enrollment. To ensure that G.E.H.A pays for the set-up and administrative fees, it is important that you follow the instructions you receive in the mail about how to set up your HSA.

With this Plan, preventive care is covered in full if rendered by preferred providers. As you receive other non-preventive medical care, you must meet the Plan's deductible before we pay benefits according to the benefits described in Section 5, *Traditional Medical Coverage Subject to the Deductible*. You can choose to use funds available in your HSA to make payments toward the deductible, or you can pay toward your deductible entirely out-of-pocket, allowing your savings to continue to grow.

This HDHP includes five key components: savings; preventive care; traditional medical coverage healthcare that is subject to the deductible; catastrophic protection for out-of-pocket expenses; and health education resources and account management tools.

Preventive care

The Plan covers preventive care services from preferred providers, such as periodic health evaluations (e.g., annual physicals), screening services (e.g., cancer screenings, cardiac screenings, and mammograms), well-child care, child and adult immunizations, and tobacco cessation programs. These services are covered at 100% if you use an in-network provider and the services are described in Section 5, *Preventive care*. Preventive care for children is covered at 100%. Y*ou do not have to meet the deductible before using these services.*

This Plan also provides vision care and dental coverage. *You do not have to meet the deductible before using these services.*

The calendar year deductible ***does not*** apply to the following services:

- Supplemental vision care, go to geha.com/HDHP-Vision to learn more;
- Dental benefits (100% of Plan allowance for diagnostic and preventive services twice per person per calendar year).

Traditional medical coverage

After you have paid the Plan's deductible, we pay benefits under **Traditional Medical Coverage** described in Section 5. The Plan typically pays 95% for in-network and 65% for out-of-network care.

Covered services include:

- Medical services and supplies provided by physicians and other healthcare professionals;
- Surgical and anesthesia services provided by physicians and other healthcare professionals;
- Hospital services; other facility or ambulance services;
- Emergency services/accidents;
- Mental health and substance use disorder treatment; and
- Prescription drug benefits.
