Benefit Description	You pay After the calendar year deductible...
Inpatient hospital	**HDHP**
Precertification is required in advance of admission. Inpatient services provided and billed by a hospital or other covered facility such as surgery, intensive care or other treatments billed by the hospital or facility while you are staying there.	Services are paid at regular medical Plan benefits.
Room and board, such as: • Ward, semiprivate, or intensive care accommodations • General nursing care • Meals and special diets Notes: • We only cover a private room if we determine it to be medically necessary. Otherwise, we will pay the hospital's average charge for semiprivate accommodations. The remaining balance is not a covered expense. If the hospital only has private rooms, we will cover the private room rate. • When the hospital bills a flat rate, we prorate the charges to determine how to pay them, as follows: 30% room and board and 70% other charges. Other hospital services and supplies, such as: • Operating, recovery, and other treatment rooms • Prescribed drugs and medications • Diagnostic laboratory tests and x-rays • Blood or blood plasma, if not donated or replaced • Dressings, splints, casts, and sterile tray services • Medical supplies and equipment, including oxygen • Anesthetics, including nurse anesthetist services • Take-home items • Medical supplies, appliances, medical equipment, and any covered items billed by a hospital for use at home - See Section 5(a) for any applicable *Durable Medical Equipment (DME)* cost share. Note: • We base payment on whether the facility or a healthcare professional, bills for the services or supplies. For example, when the hospital bills for its nurse anesthetists' services, we pay hospital benefits and when the anesthesiologist bills, we pay surgery benefits.	In-network: 5% of the Plan allowance Out-of-network: 35% of the Plan allowance plus the difference between the Plan allowance and the billed amount
Maternity care – Inpatient hospital Here are some things to keep in mind: • You do not need to precertify your normal delivery; see Section 3, *Maternity care* for other circumstances, such as extended stays for you or your baby.	In-network: Nothing (deductible applies) Out-of-network: 35% of the Plan allowance plus the difference between the Plan allowance and the billed amount
