Coordinating with other drug coverage (cont.)

Should Medicare rules change on prescription drug coverage, we reserve the right to require you to use your Medicare coverage as the primary insurance for these drugs.

For Medicare Part B insurance coverage: If Medicare Part B is primary, discuss with the retail pharmacy and/or CVS Caremark the options to submit Medicare covered medications and supplies to allow Medicare to pay as the primary carrier. Prescriptions typically covered by Medicare Part B include diabetes supplies (test strips, meters), specific medications used to aid tissue acceptance from organ transplants, certain oral medications used to treat cancer, and ostomy supplies.

Retail - When using a retail pharmacy for eligible Medicare Part B medication or supplies, present the Medicare ID card. Request the retail pharmacy bill Medicare as primary. Most independent pharmacies and national chains are Medicare providers. To locate a retail pharmacy that is a Medicare Part B participating provider, visit the Medicare website at www. medicare.gov/supplier/home.asp or call Medicare Customer Service at 800-633-4227.

Mail Order - To receive your Medicare Part B-eligible medications by mail, send your mail-order prescriptions to CVS Caremark. The CVS Caremark Mail Service Pharmacy will review the prescriptions to determine whether it could be eligible for Medicare Part B coverage and submit to Medicare if appropriate.

Please note, the CVS Caremark Mail Service Pharmacy is not a Medicare Part B provider for diabetic supplies. You must use a retail pharmacy willing to bill Medicare as primary.

For Medicare Part D insurance coverage: G.E.H.A supplements the coverage you get with your Medicare Part D prescription drug plan. Your Medicare drug plan provides your primary prescription drug benefit. G.E.H.A provides your secondary prescription drug benefit. To ensure that you maximize your benefits, use a pharmacy in network for both G.E.H.A Plan and your Medicare Part D plan, and provide both the plan ID cards when filling a prescription allowing the pharmacy to coordinate coverage on your behalf.

Patient Safety

G.E.H.A has several programs to promote patient safety. Through these programs, we work to ensure safe and appropriate quantities of medication are being dispensed. The result is improved care and safety for our members. Patient safety programs include:

- Preauthorization - Approval must be obtained for certain prescription drugs and supplies before providing benefits for them.
- Quantity allowances - Specific allowances are in place for certain medications, based on manufacturer and FDA recommended guidelines.
- Pharmacy utilization - G.E.H.A reserves the right to maximize your quality of care as it relates to the utilization of pharmacies.

G.E.H.A will participate in other approved managed care programs, as deemed necessary, to ensure patient safety.

How to use participating network retail pharmacies

You may fill your prescription at any participating retail pharmacy. To locate participating pharmacies, call CVS Caremark at 844-443-4279 or visit geha.com/Prescriptions-Summary. To receive maximum savings, you must present your plan ID card at the time of each purchase, and your enrollment information must be current and correct. In most cases, you simply present the plan ID card together with the prescription to the pharmacist.

How to use CVS Caremark Mail Service Pharmacy

Through this service, you may receive up to a 90-day supply per prescription of maintenance medications and/or supplies which require a prescription. Some medications may not be available in a 90-day supply from CVS Caremark Mail Service Pharmacy even though the prescription is for 90 days. Although insulin, syringes, diabetic supplies and ostomy supplies do not require a physician's prescription, to obtain through CVS Caremark Mail Service Pharmacy you should obtain a prescription (including the product number for ostomy and insulin pump supplies) from your physician for a 90-day supply.

Not all drugs are available through CVS Caremark. In order to use CVS Caremark Mail Service Pharmacy, your prescriptions must be written by a licensed prescriber in the United States. In addition, your mailing address must be within the United States or include an APO address.
