FOUNDED BY FEDERAL EMPLOYEES IN 1937

Our spirit of service dates back nine decades to our founding by railway postal clerks who “passed the hat” to cover each other in times of need. 88 years later, we honor our origin by delivering comprehensive coverage and benefits that go beyond for federal employees, retirees and their families.

Get the coverage that millions of federal employees have counted on through the years

As a member-built organization, our dollars are put back into expanding the coverage that supports and protects those who support and protect our country.

G.E.H.A Government Employees Health Association
