Benefits Description	You pay After the calendar year deductible...
Treatment therapies (cont.)	**HDHP**
• Growth hormone therapy (GHT) - **Preauthorization is required.** See Section 3, *Other services that require preauthorization.* - GHT is covered under the prescription drug benefit. We will ask you to submit information that establishes GHT is medically necessary. Ask us to authorize GHT before you begin treatment; otherwise, we will only cover GHT services from the date you submit the information. If you do not ask or if we determine GHT is not medically necessary, we will not cover the GHT or related services and supplies. Notes: • Most medications required for treatment therapies are available under Section 5(f), S*pecialty drug benefit.* • Applied Behavioral Analysis Therapy is available under the *Mental Health and Substance Use Disorder Benefits* in Section 5(e). • Outpatient therapy (including cardiac and pulmonary rehabilitation), see Section 5(c), *Outpatient Hospital* services for applicable outpatient facility charges.	In-network: 5% of the Plan allowance Out-of-network: 35% of the Plan allowance and any difference between our allowance and the billed amount
Dialysis • Dialysis – hemodialysis and peritoneal dialysis • Initial home dialysis training for the member and a helper is covered • G.E.H.A needs to be notified of the first date of your dialysis, even when an extension is required for coordination of benefits. Refer to G.E.H.A's dialysis notification form located at geha.com/Dialysis-Notification. • See Section 5(f), *Prescription drug benefits,* for available medications required for treatment therapies.	In-network: 5% of the Plan allowance Out-of-network: 35% of the Plan allowance and any difference between our allowance and the billed amount
Not covered: • *Chelation therapy except for acute arsenic, gold or lead poisoning* • *"Grocery" food items that can routinely be obtained online or in stores (e.g., gluten-free breads)* • *Maintenance cardiac and pulmonary rehabilitation* • *Topical hyperbaric oxygen therapy* • *Prolotherapy* • *Ongoing licensed/unlicensed dialysis assistance in the home after initial dialysis training* • *Medical foods that do not require a prescription under Federal law even if your physician or other health care professional prescribes them* • *Medical foods not provided by a DME vendor* • *Nutritional supplements that are not administered by catheter or nasogastric tubes*	*All charges*
