Prescription drug benefits

There are important features you should be aware of. These include:

- **Drug coupon/copay cards:** We do not coordinate with drug coupon/copay cards.
- **Who can write your prescription:** A licensed physician or dentist, and in states allowing it, licensed or certified providers with prescriptive authority prescribing within their scope of practice. In addition, your mailing address must be within the United States or include an APO address.
- **Where you can obtain them**: You may fill the prescription at a participating network retail pharmacy, CVS Caremark Mail Service Pharmacy, or through a non-network pharmacy. We pay a higher level of benefits when you use a network pharmacy. CVS Specialty Pharmacy is the exclusive provider for specialty medications. You may contact the Specialty Pharmacy at 800-237-2767.
- **We have a managed formulary.** If your physician believes a name brand product is necessary or there is no generic available, your physician may prescribe a name brand drug from a formulary list. This list of name brand drugs is a preferred list of drugs that we selected to meet patient needs at a lower cost.
  - Please see our online formulary and drug pricing search tools at the following geha.com/Prescriptions-Summary.
- **How to submit a prescription reimbursement claim:**
  - Include original drug receipts and submit to:

    CVS Caremark
    P.O. Box 52136
    Phoenix, AZ 85072-2136

    You may also submit prescription reimbursement requests online via Caremark web portal (geha.com/Prescriptions-Summary) or Caremark mobile app (available for Android and Apple).

    Reimbursement will be based on G.E.H.A's costs had you used a participating pharmacy. Members are responsible for their applicable deductible and/or coinsurance, and the difference between our allowance and the cost of the drug.
- **How to obtain preauthorization:** If you are filling a medication requiring a preauthorization for medical necessity, please call 855-240-0536.
- **Your benefit includes the Advanced Control Specialty Formulary (ACSF);** please see *CVS Caremark Formulary* for additional information.
- **Our prescription benefit includes a step therapy program.** G.E.H.A's preauthorization process may include step therapy which requires you to use a generic/preferred medication(s) before a brand and/or non-preferred medication is covered. If you are filling a brand and/or non-preferred medication and have already tried the generic/preferred medication(s), the brand and/or non-preferred medication will be dispensed for the applicable plan coinsurance.
  - When you try to fill a brand and/or non-preferred medication and you have not tried the generic/preferred medication (s), the pharmacist will contact your physician to notify them of the generic/preferred alternative. If the physician approves, a generic/preferred medication will be dispensed for the applicable plan coinsurance. If the physician does not approve, a preauthorization review will be initiated to determine the medical necessity of the brand and/or non-preferred drug. If the preauthorization for the brand and/or non-preferred medication is approved, you will be responsible for the applicable plan coinsurance.
  - Unless there are documented clinical reasons why you cannot take the generic/preferred drug, you may still obtain the brand and/or non-preferred drug, but you will be responsible for 100% of the cost, which will not apply to your annual out-of-pocket maximum.
