Prescription drug benefits (cont.)

- Claim pricing is based on the contractual discounts plus a professional fee and any applicable sales tax. Pharmacies must submit all ingredients in a compound prescription for online and paper claim submissions. At least one of the ingredients must require a physician's prescription in order to be covered by the Plan. You are responsible for the appropriate brand or generic copay, or coinsurance based on the ingredients. **Preauthorization may be required.** If the compound includes an experimental or investigational drug, the compound will not be covered. Compound medications are limited to a 30-day supply.
- Ask the pharmacist to submit your claim electronically or online. If the participating retail pharmacy is unable to submit the compound medication claim electronically to CVS Caremark, you will pay the full cost of the medication and must submit the claim for reimbursement. Make sure the pharmacy provides a list of the National Drug Codes (NDCs), quantity and cost for every ingredient in the compound medication and include this information on your claim.
- Mail the claim to CVS Caremark, PO Box 52136, Phoenix, AZ 85072-2136 or submit for reimbursement online via Caremark web portal (geha.com/Prescriptions-Summary) or Caremark mobile app (available for Android and Apple).
- Claim calculations, copayments, and reimbursement for direct claims are performed using an industry standard reimbursement method for compounds.

Prescription drug tiers

- **We divide prescription drugs into categories or tiers:** generic, preferred, and non-preferred medications. Please note specialty medications can be considered either preferred or non-preferred. When an approved generic equivalent is available, that is the drug you will receive, unless you or your physician specifies the prescription must be dispensed as written. When an approved generic equivalent is not available, you will pay applicable plan copayment/coinsurance for the medications dispensed. If an approved generic equivalent is available, but you or your physician specifies that the prescription must be dispensed as written with the brand name medication, you will pay the generic copayment plus the difference between the cost of the generic drug and the brand name drug dispensed. Your physician may request the brand name drug be reviewed, and if approved as medically necessary, you will pay the applicable brand name copayment/coinsurance.
  - **Generic drugs** are FDA approved prescription medications. They are chemically and therapeutically equivalent to the corresponding brand name drug but are available at a lower price. The FDA requires that generic equivalent medications contain the same active ingredients and be equivalent in strength and dosage to brand name drugs.
  - **Preferred drugs** are FDA approved prescription medications included on the Preferred Drug List developed by CVS Caremark. This list is developed by an independent panel of doctors and pharmacists who ensure the medications are clinically appropriate and cost-effective.
  - **Non-Preferred drugs** are FDA approved prescription medications that may or may not covered by G.E.H.A, however they are not included on the CVS Caremark Preferred Drug List. Most commonly utilized medications have generic or preferred medications available.

High Option Maintenance Choice

Maintenance Choice® lets you choose how to get 90-day supplies of your maintenance medications: through mail service or at a retail CVS Pharmacy. Either way, you pay mail service prices for 90-day supplies. After two retail 30-day prescription fills, members are required to use their mail service benefit. With the Maintenance Choice program, members can continue to use retail CVS Pharmacy locations to gain access to a 90-day supply while accessing the mail order coinsurance under your plan. Maintenance Choice also allows members the ability to have their prescription transferred from the mail order service to a retail CVS Pharmacy location if the member wants the experience of talking with pharmacy staff in person. If a member would like to get started with mail service for the first time, they can call the CVS Caremark Fast Start program and CVS Caremark will work with their physician to acquire a 90-day supply prescription to be filled through either the CVS Caremark Mail Service Pharmacy or their local retail CVS Pharmacy. The CVS Caremark Fast Start program can be reached at 800-875-0867 or members can sign in or register at geha.com/Prescriptions-Summary once their plan year begins.
