Datroway (datopotamab deruxtecan-dlnk)

Original Effective Date: 3/24/2025 Revision Date(s): 3/24/2025; 12/11/2025; 02/16/2026 Review Date: 02/16/2026

Policy type: Medical Necessity Line of Business: All G.E.H.A Medical Plans

Authorizations are issued for 6 (six) months, unless the ordering physician requests a different timespan or the patients' unique circumstance or condition supports the medical necessity for a different authorization timeframe. Reauthorization requests are reviewed for efficacy, safety and tolerability..

Preference	Requires Prior Auth	Drug Name	HCPCS Code	Description
---	---	---	---	---
Preferred	Yes	Trodelvy	J9317	Injection, sacituzumab govitecan-hziy, 2.5 mg
Non-preferred	Yes	Datroway	J9011	Injection, datopotamab deruxtecan-dlnk, 1 mg

Members must have documentation of a contraindication, or intolerance, to Trodelvy or clinically appropriate rationale for treatment with Datroway for overlapping indications or compendium supported uses in hormone-receptor positive metastatic breast cancer..

Preferred product requirements apply to new starts only.

Indication Specific Criteria Breast cancer -- unresectable or metastatic

The member is 18 years of age or older; AND

The member has an ECOG performance status of 0-11; AND

The member has hormone receptor (HR) positive disease; AND

The member has HER2 negative (IHC 0, IHC 1+ or IHC 2+/ISH-) disease; AND

Datroway is used as subsequent therapy after the following:

O Endocrine Therapy; AND

O Chemotherapy; AND

O Enhertu (if member is eligible for treatment with Enhertu, as per current version of NCCN Guidelines)

Source PDF page 2

EGFR-Mutated Non-squamous non-small cell lung cancer -locally advanced or metastatic.

The member is 18 years of age or older; AND

The member has an ECOG performance status of 0-12; AND

The member has one of the following EGFR mutations: exon 19 deletion, L858R, L861Q, exon 20insertion, S7681, or G719X; AND

Has not had prior treatment with:

O Any agent including antibody drug conjugate (ADC) containing a chemotherapeutic agent targeting topoisomerase I; OR

O TROP2-targeted therapy

Datroway will be used as subsequent therapy after the following:.

O Platinum-based (i.e. carboplatin, cisplatin) systemic chemotherapy; AND

O EGFR-directed therapy (i.e. afatinib, dacomitinib, erlotinib, gefitinib, osimertinib)

Universal Approval Criteria:

Unless otherwise noted, the review criteria used by OncoHealth to determine medical necessity for anticancer treatments and supportive agents include, but is not limited to:

National Comprehensive Cancer Network (NccN) - use consistent with NCCN recommendations carrying a Category 1 or 2A level of evidence; OR

United States Food and Drug Administration (FDA) labeling - new drugs or regimens (combinations of drugs) consistent with the product labeling; OR

Indications not included in the official FDA labeling or recommended by NCcN (Category 1 or 2A level of evidence) may be considered if determined to be medically necessary per one or more of the following compendia:.

O Clinical Pharmacology (Strong For); OR.

O Wolters Kluwer Lexi-Drugso (Level A); OR

Other uses of drugs and biologics may be considered medically necessary if supported as safe and effective according to peer-reviewed articles from one of the following journals:

O American Journal of Medicine; Annals of Internal Medicine; Annals of Oncology; Annals of Surgical Oncology; Biology of Blood and Marrow Transplantation; Blood; Bone Marrow Transplantation; British Journal of Cancer; British Journal of Hematology; British Medical Journal; Cancer; Clinical Cancer Research; Drugs; European Journal of Cancer (formerly the European Journal of Cancer and Clinical Oncology); Gynecologic Oncology; International Journal of Radiation, Oncology, Biology, and Physics; The Journal of the American Medical Association, Journal of Clinical Oncology; Journal of the National Cancer Institute; Journal of the National Comprehensive Cancer Network (NccN); Journal of Urology; Lancet; Lancet Oncology; Leukemia; The New England Journal of Medicine; Radiation Oncology;.

Q Meeting abstracts and case reports are excluded from consideration;

Source PDF page 3

Non-standard protocols may be approved based on unique clinical circumstances;

Dose and frequency should be consistent with United States Food and Drug Administration (FDA) labeling, National Comprehensive Cancer Network@ (NccN), or indication specific peer-reviewed literature;

In the instance that a request is made for drug(s) that was (were) previously tried (including in the same pharmacologic class or with the same mechanism of action) and such drug(s) was (were) discontinued due to a lack of efficacy the request may be subject to an off-label review for medical necessity unless supported by the NccN or high quality literature (prospective phase 2 or 3 studies published as full manuscripts in a CMS-supported journal).

Billing:

Drug Name	HCPCS Code	Description
---	---	---
Trodelyv	J9317	Injection, sacituzumab govitecan-hziy, 2.5 mg
Datroway	J9011	Injection, datopotamab deruxtecan-dlnk, 1 mg
