Vectibix (panitumumab)

Original Effective Date: 7/1/2024 Revision Date(s): 5/22/2024; 6/17/2024; 10/1/2025 Review Date: 10/1/2025

Policy type: Medical Necessity Line of Business: All GEHA Medical Plans

Authorizations are issued for 6 (six) months, unless the ordering physician requests a different timespan or the patients' unique circumstance or condition supports the medical necessity for a different authorization timeframe. Reauthorization requests are reviewed for efficacy, safety and tolerability..

Preference	Requires Prior Auth	Drug Name	HCPCS Code	Description
---	---	---	---	---
Preferred	Yes	Cetuximab (Erbix)	J9055	Injection, cetuximab, 10 mg
Non-Preferred	Yes	Panitumumab (Vectibix)	J9303	Injection, panitumumab, 10 mg

Members must have documentation of a contraindication, failure, or intolerance to the preferred agent prior to approval of a non-preferred product, when clinically appropriate.

Preferred product requirements apply to new starts only..

Step Therapy applies to all overlapping compendia supported indications/regimens..

Universal Approval Criteria:

Unless otherwise noted, the review criteria used by OncoHealth to determine medical necessity for anticancer treatments and supportive agents include, but is not limited to:

National Comprehensive Cancer Network@ (NCCN) - use consistent with NCCN recommendations carrying a Category 1 or 2A level of evidence; OR

United States Food and Drug Administration (FDA) labeling - new drugs or regimens (combinations of drugs) consistent with the product labeling; OR.

Indications not included in the official FDA labeling or recommended by NCCN (Category 1 or 2A level of evidence) may be considered if determined to be medically necessary per one or more of the following compendia:

O Clinical Pharmacology (Strong For); OR

O Wolters Kluwer Lexi-Drugs@ (Level A); OR

Other uses of drugs and biologics may be considered medically necessary if supported as safe and effective according to peer-reviewed articles from one of the following journals:

O American Journal of Medicine; Annals of Internal Medicine; Annals of Oncology; Annals of Surgical Oncology; Biology of Blood and Marrow Transplantation; Blood; Bone Marrow Transplantation; British Journal of Cancer; British Journal of Hematology; British Medical Journal; Cancer; Clinical Cancer Research; Drugs; European Journal of Cancer (formerly the European Journal of Cancer and Clinical Oncology); Gynecologic Oncology; International Journal of Radiation, Oncology, Biology, and Physics; The Journal of the American Medical

Source PDF page 2

Association, Journal of Clinical Oncology; Journal of the National Cancer Institute; Journal of the National Comprehensive Cancer Network (NCCN); Journal of Urology; Lancet; Lancet Oncology; Leukemia; The New England Journal of Medicine; Radiation Oncology;

O Meeting abstracts and case reports are excluded from consideration;

Non-standard protocols may be approved based on unique clinical circumstances;

Dose and frequency should be consistent with United States Food and Drug Administration (FDA) labeling, National Comprehensive Cancer Network (NCCN), or indication specific peer-reviewed literature;

In the instance that a request is made for drug(s) that was (were) previously tried (including in the same pharmacologic class or with the same mechanism of action) and such drug(s) was (were) discontinued due to a lack of efficacy the request may be subject to an off-label review for medical necessity unless supported by the NCCN or high quality literature (prospective phase 2 or 3 studies published as full manuscripts in a CMS-supported journal).
